

STARMAKERZ ONLINE STUDIO

SOS: Help us to help you!

Classes Offered Virtually In Dance

I am delighted to confirm that we will be offering online classes to be able to keep the engagement with your children. This will be offered through Zoom, below are step by step instructions on how to install this app and join us online.

Step One:

Download Zoom.

On a Computer/laptop or tablet (this will allow a larger screen for your child to see us) - <https://zoom.us/download>

On your phone - go to the app store and find Zoom Cloud Meeting, click install, it will then appear in apps as a blue icon with a camera.

Step Two:

Allow microphone/audio use and video use on the app.

Step Three:

I will send a link to a meeting at a scheduled time, click on the URL in the email to join the meeting and wait for the host (me) to allow you to join the meeting.

Step Four:

I will mute and unmute the children's microphones throughout the lesson to allow for listening and learning and also discussion and feedback, please try not to have too much background noise at the times of the microphone being on.

Step Five:

Add the meeting times to your calendar to get a reminder, make sure the children are set up to join 10 minutes before the class is due to start to allow time for any technical difficulties to be addressed.

IF YOU GET DISCONNECTED DUE TO WIFI CUTTING OUT THEN CLICK ON THE SAME LINK IN THE EMAIL AGAIN TO RE-CONNECT.

Needed:

- Access to the internet and the Zoom app
- Access to an electronic device with video and audio
- Some small space to dance/follow instruction (we will adapt the lessons based on what is available for each class)
- Appropriate footwear, for Tap lessons, if you have something to protect your floor then great but I would recommend that children wear footwear with a hard sole or bare feet so not to slip in socks
- Parents or an adult to be around to ensure health and safety or the space is still in use and appropriate use of technology
- An open mind and patience as we all learn this new way of engagement together

Benefits:

- The children still get to interact with their Starmakerz friends and see that they are all in this together
- Fun learning to break up their day
- Training can continue from your home

WE HOPE TO SEE YOU THERE!
